Emergency 9-1-1 Service Committee Asks MPSC to Reopen Rulemaking |

The State of Michigan Emergency 9-1-1 Service Committee (“9-1-1 Committee”) has formally asked the Michigan Public Service Commission (“Commission”) to re-open its rulemaking determination governing the provision of 9-1-1 service by multi-line telephone system (“MLTS”) operators in Michigan. The Commission is required by Section 405 of the Emergency 9-1-1 Service Enabling Act (the “Act”) to promulgate rules “to require each service user with a multiline telephone. . .

. . . system to install no later than December 31, 2016 the necessary equipment and software to provide specific location information of a 9-1-1 call.” MCL 484.1405. In an Order issued on October 20, 2011 in MPSC Case No. U-16439, the Commission promulgated such rules.

According to the 9-1-1 Committee’s filing requesting the reopening of the rulemaking proceeding, the 9-1-1 Committee has “concluded that the current language of the rule inadvertently creates a loophole for those operators who might seek to avoid compliance.” The 9-1-1 Committee believes that the current rules

suggest three separate characteristics for MLTS operators to consider in determining the type of specific location information required:

- One building OR multiple buildings
- One floor OR multiple floors
- Buildings between 7,000 and 40,000 sq. ft. OR buildings in excess of 40,000 sq. ft.

A reasonable reading of the rule’s plain language indicates there are buildings that the MPSC intended to cover that do not have the specific characteristics listed in (2)-(5). . . . Specifically, the following entities are not explicitly covered:

- A one-floor building, greater than 40,000 sq. ft.
- A multi-floor building, between 7,000 and 40,000 sq. ft.
- Multiple, one-floor buildings, between 7,000 and 40,000 sq. ft., with a single address
- Multiple, multi-floor buildings, greater than 40,000 sq. ft., with a single address

In its filing, the 9-1-1 Committee suggests that the Commission revise the rules to reduce the threshold for MLTS operators from 40,000 square foot buildings to 7,000 square foot buildings, which the 9-1-1 Committee believes will close the loophole they believe exists.

The Commission has not yet acted on the 9-1-1 Committee’s petition. Pursuant to Section 38 of the Michigan Administrative Procedures Act, MCL 24.238, within 90 days after filing of a request for rule-making, the Commission “shall initiate the processing of a rule or issue a concise written statement of its principal reasons for denial of the request.”
