

David Gorski

Senior Counsel

David Gorski is senior counsel in the firm's intellectual property and litigation groups. David works with clients in a broad range of technology industries including electrical engineering, mechanical engineering, oil field and well logging tools, formation evaluation in the fields of resistivity, nuclear logging, acoustics, nuclear magnetic resonance, and gamma ray spectroscopy; petrophysics, nanotechnology, optics, sensors, seismic data acquisition, vertical seismic profiling, microelectromechanical systems, and telemetry/data transmission. He also works with clients to prevent cybersecurity intrusions and bolster digital privacy policies. David's prosecution experience includes preparing and prosecuting over 150 domestic and foreign patent applications, including inventor interviews, claims and specification drafting, examiner interviews, office action responses, and patentability studies. David holds a Professional Engineering License issued by the Texas Board of Professional Engineers. He has been named a Certified Internal Auditor and is Certified in Control Self Assessment by the Institute of Internal Auditors.
