**AT&T 4G LTE Available In Escanaba** | continued from Page 1

Several of the benefits AT&T 4G LTE provides include:

- Faster speeds. LTE technology is capable of delivering speeds faster than many other mobile Internet technologies.\*\*\* Customers can stream, download, upload and game faster than ever before.
- Reliability. AT&T has the nation's most reliable 4G LTE network.
- Cool new devices. AT&T offers several LTE-compatible devices, including new AT&T 4G LTE smartphones and tablets.
- Faster response time. LTE technology offers lower latency than other wireless technologies, which means faster processing time to move data through a network, such as initiating a webpage or file download. Lower latency helps to improve services like mobile gaming, two-way video calling and telemedicine.
- More efficient use of spectrum. Wireless spectrum is a finite resource, and LTE uses spectrum more efficiently than other technologies, creating more space to carry data traffic and services and to deliver a better network experience.

"We continue to see demand for mobile Internet skyrocket, and our 4G LTE network in Escanaba responds to what customers want from their mobile experience — more, faster, reliably, on the best devices," said Jim Murray, president, AT&T Michigan.

AT&T's 4G Network -- This expansion is part of AT&T's Project Velocity IP (VIP), a three-year investment plan announced in Fall 2012 to expand and enhance its IP broadband networks. Through this investment, AT&T is supporting its customers' growing desire for high-speed Internet access and new mobile, app and cloud-based services. As part of Project VIP, AT&T plans to add macro cell sites nationwide by year-end 2015, as well as deploy small cells and add Distributed Antenna Systems to increase the density of its wireless network.

AT&T's innovation and investment have resulted in a nationwide 4G network with ultra-fast speeds and a consistent user experience. AT&T's focus to deliver the best possible mobile Internet experience goes beyond 4G to embrace additional connection technologies. AT&T operates more than 34,000 AT&T Wi-Fi Hot Spots at popular restaurants, hotels, bookstores and retailers, and provides access to more than 1 million globally through roaming agreements. Most AT&T smartphone customers get access to our entire national Wi-Fi network at no additional cost, and Wi-Fi usage doesn't count against customers' monthly wireless data plans.\*\*\*\*

AT&T also is a leading developer of Distributed Antenna Systems, which utilize multiple small antennas to maximize coverage and speed within stadiums, convention centers, office buildings, hotels and other areas where traditional coverage methods are challenging.

Over the past six years (2008 to 2013), AT&T invested more than \$140 billion into its wireless and wireline networks, when you combine capital investment and acquisitions of spectrum and wireless operations. Since 2008, AT&T has invested more capital into the U.S. economy than any

other public company. In a September 2013 report, the Progressive Policy Institute ranked AT&T No. 1 on its list of U.S. "Investment Heroes."

## **ORDERS ISSUED BY THE COMMISSION |**

---

The Michigan Public Service Commission (“Commission”) issued the following Orders at its regularly scheduled meeting held on Tuesday, July 22, 2014, at 2:00 p.m. at the Commission’s temporary offices located at 4300 West Saginaw, Lansing, Michigan.

**Case No. U-11756**

Remand from FCC

**Michigan Pay Telephone Association et al. v Ameritech Michigan and GTE North Incorporated**

<http://efile.mpsc.state.mi.us/efile/viewcase.php?casenum=11756>

On July 22, 2014, the Michigan Public Service Commission (“Commission”) issued an Order allowing Kelley Drye & Warren LLP and Clark Hill PLC to withdraw as counsel for named complainants: American Paytel Communications, Inc., Sheffield Systems, Inc., Peoples Telephone Company, and PhoneTel Technologies, Inc., as well as the unnamed affiliates of the latter two companies, Davel Communications, Inc., and Teleleasing Enterprises, Inc. According to a Motion filed with the Commission on July 7, 2014, although these complainants were either named in the original complaint filed on August 10, 1998, or became affiliates of named parties through merger, Kelley Drye & Warren LLP and Clark Hill PLC are no longer able to contact these parties. On March 6, 2014, the Commission issued an order in this case directing the Administrative Law Manager assigned to preside over Commission matters to appoint an Administrative Law Judge (“ALJ”) to mediate all disputed issues related to the AT&T Michigan Inc. 2014 Refund Report. The mediation remains pending.

**Case No. U-17646**

## **NOTICES OF OPPORTUNITIES TO COMMENT |**

---

The following Notices of Opportunity to Comment have been issued by the Michigan Public Service Commission's Executive Secretary. Any interested person may submit comments on the application by sending written comments to the Commission by mail to: Executive Secretary, Michigan Public Service Commission, P.O. Box 30221, Lansing, Michigan 48909. Electronic comments may be e-mailed to: <mpscefilecases@michigan.gov>. Any comments should reference the applicable docket number.

**Case No. U-17655**

**Telecommunications Relay Service**

**Commission's Own Motion**

**<http://efile.mpsc.state.mi.us/efile/viewcase.php?casenum=17655>**

**Comments Due: Thursday, August 7, 2014**

**Reply Comments Due: Thursday, August 28, 2014**

On July 8, 2014, the Michigan Public Service Commission ("Commission") issued an Order opening a Comment Proceeding regarding the status of Telecommunications Relay Service ("TRS") in the State of Michigan.

The Commission has been made aware that AT&T Michigan has sent Accessible Letters to both incumbent and competitive LECs informing them that, effective February 1, 2015, AT&T Michigan will discontinue the TRS service it provides to these carriers throughout the State of Michigan. The Commission also understands that AT&T Michigan will also notify individual providers via contract termination notices in the upcoming months. AT&T Michigan has stated that it intends to continue providing TRS to its own customers.

The Commission, in order to determine the impact of AT&T Michigan's proposed discontinuance of TRS service to LECs throughout the State, has opened this docket to solicit comments on the following issues:

1. If AT&T Michigan discontinues providing TRS before a replacement system is in place, what will be the immediate effect on the providers that depend on AT&T Michigan and the Michigan TRS program from a financial, technical, and customer service perspective;
2. Do providers want to offer TRS independently and cease reliance on a single company, provide TRS jointly, contract with other independent TRS providers, or pursue a different option;
3. If providers favor a single company, who will step into AT&T Michigan's role;
4. How much time is required before an alternative program can be operational;
5. What are the costs associated with each alternative;
6. Should Michigan set up a non-profit TRS, as some other states have done;
7. Should a surcharge be added for all lines;

8. Will providers be required to apply for new approved rates (since most do not have one); and
9. Are providers concerned about the economies of scale issue – meaning, are they willing to pay more for the service in light of the fact that they do not have a large sector of the market included in their cost pool?

The Commission has asked that any person who would like to comment regarding the status of TRS as discussed in this Order submit written and e-mail comments to the Commission no later than August 7, 2014. Reply comments may be filed with the Commission no later than August 28, 2014. All comments should reference Case No. U-17655. Written comments should be sent to: Executive Secretary, Michigan Public Service Commission, P. O. Box 30221, Lansing, Michigan 48909. Comments may also be e-mailed to <mpscdockets@michigan.gov> or filed electronically through the Commission's E-Dockets Website

## **NOTICES OF HEARINGS |**

---

The following Notices of Hearings have been issued by the Michigan Public Service Commission's Executive Secretary. Unless otherwise noted, all hearings are held at Constitution Hall, 525 W. Allegan, Lansing, Michigan.

**Case No. U-17652**

**Consumer Complaint: Slamming**

**John McCready v Comcast Phone of Michigan, LLC, d/b/a Comcast Digital Phone**
